Owner understands that embryo recovery and pregnancy success are influenced by many factors, and while Triple 7 Equine will use its best efforts, **no guarantee of embryo recovery or pregnancy is made.**

If an embryo is not recovered or a transfer does not result in pregnancy, Triple 7 Equine's obligation is limited to continuing the process within the current breeding season, at the Owner's sole expense and risk.

If no embryo is recovered, either party may terminate this Agreement. In such case, Owner agrees to pay all outstanding balances and arrange for the removal of the Donor Mare at Owner's expense.

If a suitable recipient mare is not available at the time of embryo recovery, the embryo may be frozen and stored until a recipient mare becomes available at a time agreed upon by both parties. Owner agrees to be responsible for all costs associated with freezing, storage, and thawing of the embryo.

If an embryo leaves the program for any reason, including shipment to another facility, transfer into an Owner-provided recipient mare, or shipment as a frozen embryo, Owner agrees to pay a **\$950 per embryo fee**.

If Owner elects to freeze an embryo, a **\$300 freezing fee** will apply, along with applicable monthly storage fees. When a frozen embryo is later transferred into a recipient mare, Owner agrees to pay the **recipient mare lease fee in effect at that time**.

All services under this Agreement conclude at the end of the current calendar year, after which this Agreement will terminate with no further obligation by either party.

This Agreement shall be deemed made and entered into in **Pettis County, Missouri**, and shall be governed by and construed in accordance with the laws of the State of Missouri. Any legal action arising from this Agreement shall be brought exclusively in the appropriate court located in **Pettis County, Missouri**. Mare owner is liable for all legal fees for both parties.

All reproductive procedures and medical-related services are performed under the direction of, or in coordination with, a licensed veterinarian.

This Agreement shall be binding upon and inure to the benefit of the parties and their respective heirs, successors, and assigns.

Upon execution of this Agreement, Owner shall pay Triple 7 Equine a **\$1,350 non-refundable, non-transferable annual enrollment fee** for each Donor Mare. This fee covers routine reproductive management, including ultrasound examinations and cycle tracking, for the **2027 breeding season**.

Owner agrees to pay **\$500 per embryo recovery (flush)** and **\$300 per embryo transfer**. Additional services, treatments, or medications deemed necessary for proper breeding management or mare care may be provided at the discretion of Triple 7 Equine and will be billed to the Owner.

All fees outlined herein are specific to the enrolled Donor Mare and may not be transferred to another mare or owner under any circumstances.

Owner understands and acknowledges that Triple 7 Equine is not a licensed veterinary practice, and that Triple 7 Equine does not provide veterinary services, diagnosis, or treatment. All medical decisions and procedures are the responsibility of a licensed veterinarian.

Owner authorizes Triple 7 Equine to coordinate with and/or facilitate services with a licensed veterinarian when deemed necessary for the mare's health, breeding management, or well-being. All veterinary services and associated costs shall be the sole responsibility of the Owner.
